

# Task 1 (Creative)

Create 5 cartoons that represent the five types of reactions. Your cartoons should be colorful, imaginative, and correctly depict the type of reaction. All 5 cartoons need to be drawn on the poster board and labeled. I must see a rough draft before you start on your poster.

# Task 2 (Analytical)

Create a flow chart that can be used by someone to figure out the type of reaction step by step. The flow chart should be placed on the poster board and should correctly identify each of the five types of reactions. I must see a rough draft before you start on your poster.

# Task 3 (Practical)

Create an owners' manual for identifying the types of reactions. The step-by-step process should be placed on the poster board and should correctly identify each of the five types of reactions. I must see a rough draft before you start on your poster.
